

- ➔ At last a computer as easy as pie.
- ➔ Children are learning while having fun thanks to tons of educative and fun games.
- ➔ They can also create drawings, comics, music, animation movies, and more...
- ➔ Designed to avoid risks, even on Internet.
- ➔ To be shared and copied without moderation. Why be self limiting?
- ➔ Can run on every computer, including that old one in the closet!

Try it, then come and tell us about it!

Try Doudoulinux

- Translated into more than 40 languages.
- Appreciation shown by positive articles and usage in schools.

Join us!

Gather together with praiseworthy goals:

- ✓ Sharing education and culture for all, without discrimination.
- ✓ Make them be the main actor of screens, not a couch potato.
- ✓ Stimulating passion for creating and undertaking.
- ✓ Giving respectability back to computers*.

* no, they are not just typewriters...

The computer they prefer!

“ DoudouLinux reveals to children the creative, educative, cultural and fun potential that is lying dormant inside every computer. ”

DOUDOU Linux

Designed to create.

Educative and entertaining.

Simple to use in the extreme, secured
and robust.

Complementary and adapted to
scholar activities.

To be shared with who you want and
as you want*.

* Quite legally!

It's fun!

DOUDOU Linux

DoudouLinux wants to stimulate the
potential of all our children:

- * Drawing, comics.
- * Music (rhythm box, song editor, remix software).
- * Animation movies (photos step by step).
- * Customizable games, thanks to level editors.

Education oriented

- ❖ Easy computer learning from 2 years old.
- ❖ Educative suites (letters, numbers, logic, etc.).
- ❖ Music learning (piano, flute, rhythm).
- ❖ Discovering computer programming through play.
- ❖ Games stimulating logic and strategy.

“Switch on,
play, switch
off, that's
all!”

Easy and robust

- ▶ Environment resistant to use by children!
- ▶ Favors autonomy and self-confidence.
- ▶ Nothing to be configured, updated or cleaned.

A safe and secure environment

- ▶ Ads and tracking script blocking.
- ▶ Integrated web contents filtering.
- ▶ Chat, only, with known people.
